

# MINOR IN APPLIED STATISTICS

Mathematics Department offers a new program minor in “Applied Statistics.” If you have already taken STAT 1342, and (STAT 4301 or STAT 4303), you are eligible to take Minor in Applied Statistics by taking the following new courses:

- **Statistical Analytics for Research** (STAT 2342)
- **Introduction to Categorical Data Analysis** (STAT 3331)
- **Introduction to Data Analysis: SAS Certification Preparation** (STAT 3332)
- **Introduction to Applied Regression and Design of Experiments** (STAT 3344)

Add extra skills to your degree and research by learning to think, speak and write in statistical language. It would reduce uncertainty in your job search.

## ELIGIBILITY:

All allied sciences students which include Agriculture, Biology, Criminology, Geology, Psychology, Pharmacy, and Sociology etc.
