Dr. Mine Çetinkaya-Rundel
Department of Statistical Science
Duke University

Friday, April 7, 2023
12pm - 1:30pm ET

The NISS Graduate Student Network is hosting a new short course on quarto!
The instructor for this short course will be
Dr. Mine Çetinkaya-Rundel, Department of Statistical Science, Duke University.

What is Quarto?

Quarto is the next generation of R Markdown for publishing, including dynamic and static documents and multi-lingual programming language support. With Quarto you can create documents, books, presentations, blogs or other online resources. This workshop will introduce you to authoring Quarto documents using RStudio Visual Editor, which provides a user interface for editing all of Pandoc markdown. You will also get a brief look into different formats (such as slides), publishing Quarto documents to QuartoPub, and writing scientific manuscripts with Quarto.

There will be 1 hour of instruction, 15 minutes course work, 15 minutes of Q&A. Participants will receive a certificate of participation after the course. NISS is hosting this as a zoom meeting instead of a webinar, so students can freely raise their hands during Q&A. Course fee is $15 USD. Participants who are part of NISS Affiliate institutions will receive a reimbursement after course completion via Eventbrite.
