2022 STATISTICS IN PHARMACEUTICALS

CONFERENCE   AUGUST 22 - AUGUST 23

Hear what it's like to have a career in the pharmaceutical industry. Experienced professionals will share about important scientific questions in the industry, how statisticians and data scientists can provide solutions, the different career opportunities that exist, and what a typical day on the job might look like. $15 registration fee for students.

SUMMER COURSES   JULY 25 - AUGUST 5

Participate in a two-week long course on the basics of pharmaceutical statistics. Students will learn about critical topics (data standards, the estimand framework, adaptive designs, borrowing of historical data, etc.) and engage in collaborative case studies.

SCHOLARSHIP

15 scholarships are available to cover both conference and summer course registration. Students from underrepresented communities are especially encouraged to apply.

ORGANIZED BY: UConn, Vertex, Servier, Moderna, Boehringer Ingelheim, Beigene, Statistics & Data Corporation, Pfizer, Biogen, Takeda, Amgen, Merck, FDA CBER, Bristol, Myers Squibb and Roche/Genentech
