

Datassist: Part Time Remote Data Wrangler Position

Datassist is an independent consulting firm that specializes in providing research and evaluation support to non-profit organizations across the globe. You can find out more about our projects on our site www.idatassist.com. We are hiring a data analyst to join our team and assist with projects requiring statistical analysis and interpretation of analytical results.

We're looking for someone to join the team to help us find and use the data we need.

Must be curious, logical, organized, a good communicator, unafraid of sharing half-baked ideas, and dedicated to good data science practices. This job is remote so you must be comfortable working independently and communicating online.

We need you to be highly competent in finding data online and cleaning, auditing and reformatting that data to meet the needs of our team. The tools you use to do this data wrangling can include R, Excel, Python, etc. Preference will be given to applicants with skills in R. Additional skills in data visualization using tools such as Excel, R, Tableau, Javascript will be considered as very valuable assets.

You are quite comfortable working with various data formats such as MySQL, PostgreSQL, CSV, JSON, NoSQL variant, etc. You have a good understanding of at least basic statistics. You have an arsenal of weird tools and techniques for prying data out of uncooperative formats.

Most importantly, you're undeterred by the things you don't know and proceed intrepidly. You must be willing to try new things.

Please email your resume and a cover letter to us at heather@idatassist.com with "Data Wrangler" in the subject line and include the following:

1. Describe your top three data wrangling skills.
2. Tell us about a data wrangling project you had the most fun with.
3. Include a sample of your work.

This is a part-time remote job. You can work from anywhere in the world. There will be approximately 8-10 hours per week for six months, with the possibility of permanent work. There is a 4 week probationary period to make sure it's a good fit for the team. The rate is \$20-\$35 per hour depending on experience and ability.
